SUMMARY

Driven and detail-oriented programmer focused on building clean, efficient, and scalable solutions. Experienced in back-end development, API design, database management, and Agile collaboration, with a strong commitment to code quality and continuous learning.

WORK EXPERIENCE

Freelance Developer   **April 2024 - Present**
- Delivered scalable, client-focused software solutions by combining strong problem-solving and analytical skills, improving system performance and project outcomes.
- Communicated technical concepts clearly with non-technical stakeholders, enabling faster decision-making and reducing revisions and delivery timelines.
- Managed projects independently with strong time management and adaptability, consistently meeting deadlines while maintaining high-quality standards.

PROJECTS

CICS Community   **August 2024 - Present**
- Founded and lead a community github along with co-officers to further enhance and supply knowledge for students and future members of the CICS community. Making it a platform for also teaching distributed source management and documentation for students and professors.

Fit-Tech   **October 2024 - November 2024**
- Led the development of an e-commerce web application, boosting user engagement by 40% and supporting seamless browsing and transactions for 500+ active users, while collaborating with the owners to deliver high-quality, scalable, and maintainable features.

EDUCATION

BATANGAS STATE UNIVERSITY   **August 2023 - Present**
- Major in Business Analytics
- Relevant Coursework: Business Analytics, Web Development, Mobile Development, AI Integration, Data Structures and Algorithms, System Design and Architecture.
